

TDUF Databse Editor - car list

The following slot/car list will match your TDU installation, if you have installed [Millis Platinum patch](#).
In [TDUF Database Editor by DjeY](#) the slot/car dropdown list is not sorted by brand names, it offers its own sort.
So it's kinda hard to find a specific car fast.
In the table below you can sort by slot number, brand, model, ... and later perhaps by the modder name.
Because the table is very big - over 1100 entries - please be patient and give a very few seconds to get it working.

Somehow there are some problems, if more people try to use the table.
So I created a [Google Table](#).
